Stacy Campbell, Counselor

November 19, 2015

To Whom It May Concern:

I have had the pleasure of having Kacy Benson speak at two different schools that I have been a part of. Kacy has a unique way of reaching students through humor, yet talks very candidly about issues facing adolescents. He is engaging and talks to students at their level of understanding.

Students at my campus continue to ask when Mr. Benson will be coming back because his message has resonated with them. After his presentation, students have sought out our school counselor to talk about issues that they are facing that we might not have known about if Kacy had not come to speak at our campus.

I would encourage any campus to have Kacy Benson speak to their students-the message is powerful and encouraging!

Sincerely,

Bethany Logan, Ed.D.
